EDUCATION

University of Maryland, Baltimore County

Bachelor of Science in Computer Science, Minor in Philosophy

Baltimore, MD

Aug. 2022 – May 2026

EXPERIENCE

Tutor Mentor

Jan. 2026 – May 2026

University of Maryland, Baltimore County

Baltimore, MD

- Dedicated 20+ hours/week, to a total of 500 hours, across tutoring and advising roles while reserving 3 hours weekly to 1:1 mentor sessions with juniors
- Guided junior tutors on best practices, serving as the go-to resource and advisor throughout the semester
- Observed and evaluated live tutoring sessions, providing structured feedback to tutors and staff to improve session quality

CRLA Certified Tutor

Sep. 2025 – May 2026

University of Maryland, Baltimore County

Baltimore, MD

- Provided one-on-one and group tutoring across the majority of CS courses offered at UMBC
- Developed personalized study strategies that improved student performance on exams and core concept understanding
- Created supplemental material including practice problems, notes, and YouTube videos to enhance retention and engagement
- Founded LeetCode Thursdays, a recurring session where students work through coding problems to build technical and problem solving skills

Student Athlete Tutor

Feb. 2025 – May 2026

University of Maryland, Baltimore County

Baltimore, MD

- Supported student athletes with one-on-one tutoring across most CS courses offered at UMBC
- Fostered time-management and study skills, leading to measurable improvement in assignment quality
- Adapted teaching techniques to individual learning styles, simplifying complex topics

PROJECTS

BotCT | Python

Mar. 2026 – Apr. 2026

- Co-developed a Python simulation of Blood on the Clocktower board game, implementing role logic
- Implemented character abilities including role abilities, poisoning, protection, and on death mechanics
- Contributed to Discord bot integration and testing to support real-time multiplayer functionality

S-Tut | HTML/CSS, JavaScript, React, Next.js, Node.js, PostgreSQL

Dec. 2025 – Jan. 2026

- Built a full-stack tutoring center web app featuring appointment scheduling, course listings, and tutor profiles
- Designed with modularity in mind, allowing for any tutoring center to adapt the web app to their own needs
- Implemented a scheduling system that manages tutor availability and student appointment booking
